★ Projects

DRIVO: Your Ultimate Ride Companion
Developed as my final year project, DRIVO is a ride-hailing app with a unique feature of gender-based carpooling, designed to provide a safer and more efficient travel experience for users.

Restaurant Website Development
Developed a responsive and user-friendly restaurant website using HTML, CSS, and JavaScript.

Online Food Ordering Platform
Built an online food ordering system with PHP and MySQL, allowing users to browse menus and place orders seamlessly.

⅄ Extra-curricular activities

Vice President at Community Support Program - BUKC
August 2024 — January 2025

Led initiatives aimed at supporting and uplifting the community, coordinating efforts to deliver impactful services and resources to those in need.

Communication Lead at Green Youth Movement Club - BUKC
November 2023 — November 2024

Spearheaded communication strategies to promote environmental awareness and engage youth in sustainable practices.

Event Coordinator at COTHM
March 2023 — April 2023

Organized and managed events, ensuring smooth execution and a high-quality hospitality experience for participants.
